

KIRPAL SAGAR ACADEMY

“Eco-Friendly Club”

KIRPAL SAGAR ACADEMY is situated amid health enhancing salubrious environs away from the din of the city life on an area of 200 acres of land and forms a part of its complex. Apart from lush green blooming gardens, it offers its students clean, hygienic and eco friendly environment.

GREEN SOURCE OF ENERGY

KIRPAL SAGAR ACADEMY has solar power plant with 700 KW generating capacity. It represents a clean green source of energy. Solar is a great way of producing power to reduce carbon footprints. There is nothing about solar power that pollutes Mother Nature.

ORGANIC FARMS

KSA has its own organic farms and most of the vegetables spices, rice, wheat and fruits come from these farms. Organic foods are good for health because they are free from toxic chemicals. Academy provides opportunity to its students to visit these organic farms and teaches them how to create a garden and how to best maintain, what they have planted.

WATER CONSERVATION

Academy has its own set up of an effluent treatment plant in which waste water from the Academy, hostels, mess and staff quarters gets treated. This System eliminates harmful bacteria and filters before waste water enters the ground and plants.

CREATING POSITIVE ATMOSPHERE OF LEARNING

Eco clubs are have been made to encourage interest and involvement and are very rewarding especially when Children are given responsibility to take their own decisions about the changes they want to see and provided opportunities to improve their own school environment.

TREE PLANTATION

A Tree Plantation Drive under the banner of Green Wave Eco Club is organized in KIRPAL SAGAR ACADEMY every year to create social awareness about the importance of trees. Trees are rightfully called the lungs of the earth. Through this drive Eco Club focuses on need to plant as many trees as possible to make our earth beautiful and healthy.

PAINTING, CLAY MOULDING AND POSTER MAKING COMPETITION

KSA regularly organizes paintings, essay writing, clay moulding and poster making competitions to create awareness about the need to protect the environment. The students showcase their perceptions to save environment through their creativity and canvas. The Young artists also display the uniqueness and beauty of the earth that is always commendable.

STUDENTS TRAINING PROGRAMS

Rakhi Tying to trees under the banner of Eco Club is organized by KIRPAL SAGAR ACADEMY. Science has proved that plants can also sense, feel, understand and communicate and are saviours of humanity. More than 200 students from IX to XII and teachers participate in such campaigns. Participants express their affection and harmony towards nature and pledge to protect and conserve the nature and its resources for cleaner, greener and healthier prospects.

COMMUNITY PROJECTS

KSA carries the responsibility of reducing and recycling waste and educating young people about how to be eco conscious citizens, who understand their role as custodians of the environment. Waste reduction initiatives are taken by KSA to save natural resources, recycling energy and landfill space. Reducing and reusing of waste material improves the economic and environmental performance of the School and the surroundings.

WASTE MANAGEMENT

Students are also taught that waste should be properly separated into three different bins. A positive change has been observed in the behavior of students.

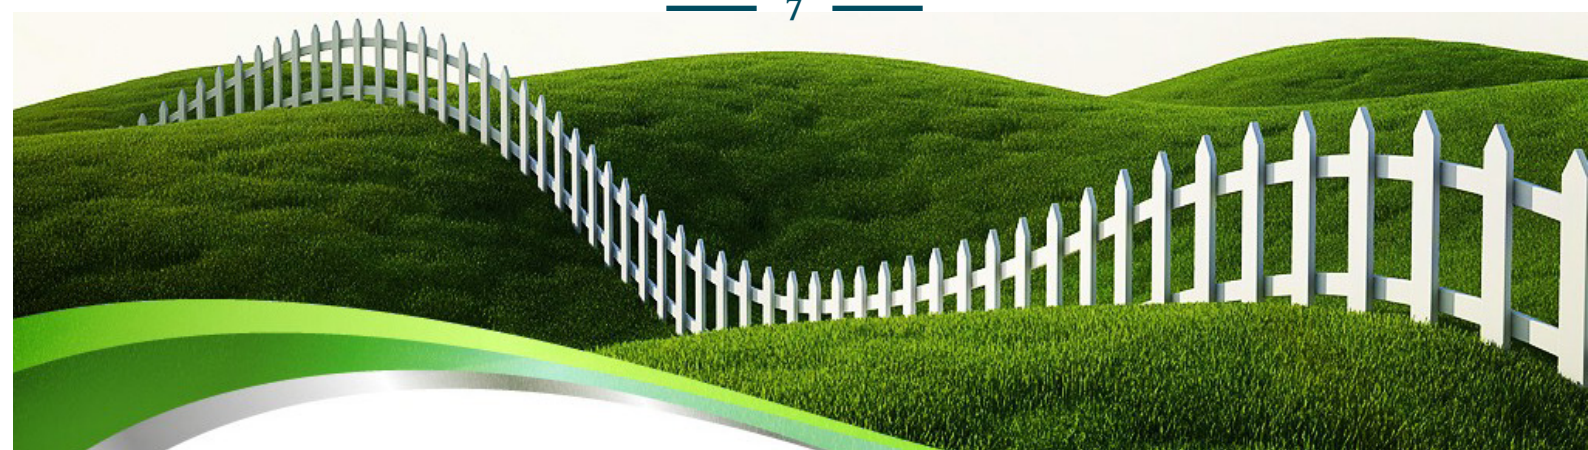

WALK TO SCHOOL CAMPAIGN

Students are encouraged to walk to School under 'Walk to School' campaign organized by different clubs of KSA (Health & Wellness Club and Eco Club). The students are made aware of advantages of walking. Keeping in view of the above campaign, KSA has taken carbon footprint as key innovative feature where the students are taught the importance of less usage of vehicles and thereby conserving energy and preserving perishable resources.

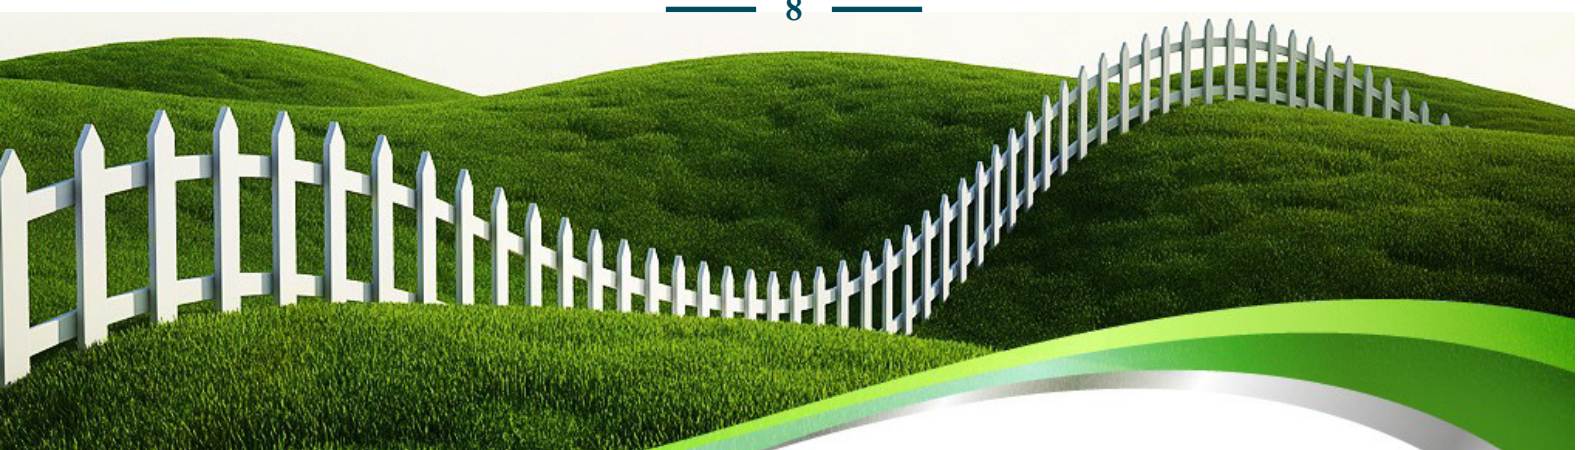

ECO-FRIENDLY DAYS

Eco friendly days are observed in KIRPAL SAGAR ACADEMY. The importance of the days are highlighted through special assemblies, display boards, power point presentations activities, competitions etc. Drawing and painting, slogan and clay moulding competitions are organized on different important days like the Earth Day, World Environment Day, World Food Day etc. The students participate enthusiastically in such activities.

GREEN GIFTS

The time-honored flower bouquet is fast replaced by the practice of gifting saplings at KSA. Taking this concept a step ahead, the eco club champs have decided to provide saplings instead of the bouquets to guests visiting the school. The saplings are wrapped in decorated jute bags for gift purpose. School empowers its students to participate and take up such meaningful environmental activities and projects.

MOCK DRILLS

NCC Seminar is organized every year by NCC BATTALION. Our school participates in these seminars every year.

CLEANING SCHOOL AND PUBLIC PLACES

The Eco Club members are involved in the waste-recycling management, cleaning public streets and removing plastic. Eco Club encourages the students to clean their School once a fortnight. Cleaning includes organic composting and taking care of the class-rooms.

SWACHHATA AWARENESS CLUB

Swachhata Awareness Day is observed in school to aware the students and society about the value and importance of this day, because students are main brand ambassadors. Under this campaign following areas are included play fields, labs, offices, school premises and class rooms. KSA provides opportunities to devise unique learning through its educational program and organizational culture to encourage and the development of environmentally Conscious Global Citizens.

VISIT TO NATURE PARK

Nature Camps are organized by KSA Eco Club. Regular visits of students are planned to give students an acquaintance with nature and the conservation of biodiversity. It's a good exposure to the fauna and flora of the hills and an impression of degradation of forests caused by human interference. They are also taught how to protect and preserve natural forests.

BE GOOD – DO GOOD – BE ONE

In this Corona crisis, KIRPAL SAGAR ACADEMY has been organizing support by distributing vegetables, basic food and other requirements for daily needs. A special permit is issued to enable us to drive to the scattered villages despite the curfew and telephone numbers are distributed so that the families could contact, in case of further shortages.
